

## Curriculum Vitae

### John F. Davis Jr., ACTAR

#### Profession:

Mr. Davis specializes in the investigation and reconstruction of motor vehicle collisions. He holds full accreditation in accident reconstruction from the Accreditation Commission for Traffic Accident Reconstruction (ACTAR). He has considerable experience downloading and analyzing leading edge digital forensics data from tractor-trailer and automobile electronic data recorders (ECM, EDR, SDM, ACM, CDR, black boxes, etc.), video event data recorders (DriveCam, SmartDrive, etc.), heavy truck telematics systems (Qualcomm, PeopleNet, etc.), Garmin and other personal GPS based devices, ABS systems (Bendix, Wabco, etc.), and numerous other devices. Mr. Davis has extensive experience inspecting and documenting the condition of braking systems on tractor-trailers and heavy trucks in order to determine their existing braking capability and applying that to the specifics of a particular collision. Mr. Davis is also trained in the interrogation and analysis of digital video evidence. He has experience managing videos from dash cameras, surveillance cameras, body cameras or other sources to make determinations of speed, time, distance, traffic signal sequences, use of turn signals, and other important factors used in accident reconstruction and producing demonstrative exhibits to highlight areas of concern.

#### Testimony:

Mr. Davis has been qualified as an expert in approximately 20 trials, has testified in more than 30 depositions in Florida and Alabama, and has testified more than 40 times before a Grand Jury in Alabama.
